## USE OF SPECIMENS

Genetics Associates, Inc. may retain patient samples (specimens), with the exception of samples collected in the State of New York, for test development and improvement, internal validation, quality assurance, and training purposes. All patient information is maintained as confidential and secure. All patient samples which are retained by Genetics Associates, Inc. are de-identified and all individually identifiable patient information is removed before samples are used.

Declining the use of remaining samples for test development and improvement, internal validation, quality assurance, and training purposes will not impact the services to you by Genetics Associates, Inc. diagnostic testing/reports.

If the box below is not checked, you consent to the use of your de-identified patient sample for the limited purposes described above.
□ I am checking this box to indicate that the sample may **NOT** be used for validation, educational purposes and/or research.

**Specimens Collected in the State of New York**
□ I am a New York state resident, and by checking this box, I give permission for GAI to retain any remaining sample longer than 60 days after the completion of testing, and to be used as a de-identified sample for test development and improvement, internal validation, quality assurance, and training purposes.
